COOK COUNTY - Land Pollution Control
Chicago Heights/LoBue #2
Permit No. 1975-64-OP
Supplemental Permit No. 75-604

LoBue Excavating Company
344 East 16th Street
Chicago Heights, Illinois 60411

Gentlemen:

Supplemental permit is hereby granted to LoBue Excavating Company to accept concrete, brick, asphalt, cardboard and demolition material, all in accordance with the plans prepared by Walter H. Flood and Company, Inc., dated December 12, 1974, September 5, 1975 and received by the Agency on December 17, 1974, September 10, 1975.

Except as modified in the above documents, the site shall be operated in accordance with the terms and conditions of Permit No. 1975-64-OP dated December 17, 1975.

Very truly yours,

ENVIRONMENTAL PROTECTION AGENCY

Re: Cook County--Land Pollution Control
Chicago Heights/LoBue #2

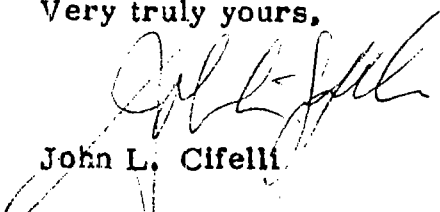

Gentlemen:

Please be advised that we just reviewed the site with Rene Van Somerin and, in reviewing our original application and subsequent documents, we note that the permit granted in accordance with the prior request was for the permission to develop a solid waste disposal site in which could be deposited foundry sand, slag, cinders and soil in accordance with the application and plans prepared by Walter H. Flood & Co., Chicago, Illinois.

This letter is a request for a supplemental permit to allow the LoBue Excavating Company, Inc. to handle, in addition to the above, concrete brick, asphalt, cardboard cartons and demolition material, if possible. Naturally, all of this non-pretrescible material will be covered in accordance with the requirements of the EPA.

As previously advised, the cinders and foundry sand are recycleable and marketable as fill foundation and, after the recycling and reclamation process, the applicant requests that he be permitted to store the resaleable, recycled sand and cinders on the Southeast corner of the site.

Very truly yours,

John L. Cifelli
